

LEWIS HOWARD.

MARCH 5, 1840.

Laid on the table.

Mr. CHITTENDEN, from the Committee on Invalid Pensions, made the following

REPORT :

The Committee on Invalid Pensions, to whom was referred the petition of Lewis Howard, report :

That the petitioner testifies that he served three tours of duty in the late war with Great Britain, on the northwestern frontier—two under Colonels Morris and Gardner, of the Kentucky militia, and one under Major Isaac Dawson, of the Ohio militia; that he was much exposed during said tours of duty; and that he then “contracted a permanent disease, which has partially disabled him ever since;” and that he is now nearly 70 years of age, and unable to labor.

John Alkine testifies to the service as stated by the petitioner, and that he was much exposed, “and liable to contract a permanent disease.”

Alexander Caldwell deposes and says, that he knew of the petitioner having served two or three tours as above stated, and that on his return from the last tour he stopped for several days at deponent’s house, “and appeared very much diseased, his limbs being badly swollen, and he very feeble.”

Doctor Peter H. Hull testifies, that he has had the petitioner under his care for the last 18 months, and “that he is afflicted with an incurable disease, being the rheumatism, with a tendency to dropsy, which might have resulted from exposure to inclement weather and great fatigue;” and that he is now more than half incapacitated from performing manual labor.

The committee do not consider the proof in this case satisfactory, and therefore ask to be discharged from the further consideration of the petition.

LEWIS HOWARD.
Laid on the table.
MARCH 5, 1896.

REPORT:

The Committee on Invalid Pensions, to whom was referred the petition of Lewis Howard, report:

That the petitioner testifies that he served three tours of duty in the late war with Great Britain, on the northwestern frontier—two under Colonel Morris and Gustaf of the Kentucky militia, and one under Major Isaac Dawson, of the Ohio militia; that he was much exposed during said tours of duty; and that he then "contracted a permanent disease, which has partially disabled him ever since;" and that he is now nearly 70 years of age, and unable to labor.

John Atkins testifies to the service as stated by the petitioner, and that he was much exposed, "and liable to contract a permanent disease."

Alexander Caldwell deposes and says that he knew of the petitioner having served two or three tours as above stated, and that on his return from the last tour he stopped for several days at deponent's house, and appeared very much diseased, his limbs being badly swollen, and he very feeble."

Doctor Peter H. Hall testifies that he has had the petitioner under his care for the last 18 months, and "that he is afflicted with an incurable disease, being the rheumatism, with a tendency to dropsy, which might have resulted from exposure to inclement weather and great fatigue;" and that he is now more than half incapacitated from performing manual labor. The committee do not consider the proof in this case satisfactory, and therefore ask to be discharged from the further consideration of the petition.
